

## Workshops

*Workshops can take many forms, from delivery in assembly, Q&A with the director and actors, and exploration of themes through drama.*

We understand that all schools and educational organisations have their own requirements and through discussion we can tailor our work to create the best learning experience for your students and/or teachers.

Citizenship and PSHE may want to focus on the issues surrounding homelessness, decisions and events that lead to homelessness and our response to those issues. As citizens of the world how do we live together and what is our social responsibility? What does it mean to be 'rich and poor', how is our self-esteem affected and how do we respond to social inequality?

As a faith based charity we can also look at what it means to see faith in action. How does religion deal with prejudice, how does your faith encourage you to see people and work within the world? Our workshops can be with students or staff. Acting on Impulse can support your school's delivery of SMSC, Religious Studies as well as Ethics and Philosophy.

Contact us and we can explore the options available and deliver something that inspires and informs.
